

EDWARD “TED” LESTER, CHIEF TECHNOLOGIST

Edward “Ted” Lester directs the technology roadmap, leads research projects, and manages external UTM-related partnerships at AiRXOS. He also engages with standards committees, including ASTM F38 UTM-related working groups and the RTCA SC-228 Detect and Avoid working group. Prior to AiRXOS, Ted worked on UAS airspace integration for the US Air Force and FAA at The MITRE Corporation. Ted holds a Bachelor of Arts degree from Middlebury College majoring in physics and an S.M. from MIT in Aeronautics and Astronautics.
